

Love to Swim School™

Pool Safety Guidelines for LTSS Guests

Thank You!

Please follow our safety guidelines to ensure that your child has an enjoyable experience at our facility.

- ☺ **Lifeguards** are on deck to ensure the safety and well-being of all our swimmers. They are specially trained to ***PREVENT accidents*** from happening. Lifeguards will never jeopardize the safety of a swimmer for the sake of enjoyment—**safety comes first.**
- ☺ Nothing takes the place of adequate parental supervision. Please assist our staff by **supervising your child in and around our facility.**
- ☺ Always be conservative when judging your child's swimming abilities. Even the best swimmers can get into trouble in the water. **Only strong swimmers should use our large pool.**
- ☺ Floats, noodles, and other floatable toys should never take the place of a Coast Guard approved lifejacket. **Please do not depend on floatable toys to aid your child in the water.**
